Summary

Frontend Developer with hands-on experience in building responsive and interactive web applications using HTML, CSS, JavaScript, and React.js. Passionate about creating clean UI, improving user experience, and continuously learning modern frontend technologies.

Education

2024 – present

Giza, Egypt

October Technological University

Bachelor of Information Technology

- Studying core concepts of Information Technology including programming, databases, networking, and software development.
- Developing practical and analytical skills through academic projects and teamwork.
- Building a strong foundation in modern web technologies and problem solving.

WE Applied Technology School

BTEC Level 3 International Diploma in Information Technology (Pearson)

- Studied Information Technology with specialization in Web Development, including programming, databases, and software development, with hands-on academic projects using PHP, Laravel, and JavaScript.

2021 – 2024

Elminya, New Elminya

Information Technology

WE ATS

Completed a two-year specialization in Web Development, focusing on front-end and back-end technologies. Gained hands-on experience in HTML, CSS, JavaScript, PHP, laravel, and MySQL. Worked on real projects and developed teamwork, problem-solving, and communication skills.

Projects

Restaurant Website

- **Technologies:** HTML, CSS, Bootstrap, JavaScript, React.js
- Developed a fully responsive restaurant website with modern UI.
- Built interactive frontend features including menu display and reservation interface.
- Focused on UI/UX design and user experience.
- Integrated with backend APIs (optional / mention in GitHub README only).

Portfolio

Built a responsive personal portfolio website using React.js, Vite, and Tailwind CSS to showcase my projects and skills, featuring reusable components, a clean UI, and mobile-friendly design. Deployed on Vercel and version-controlled using Git & GitHub.

Courses

present
